

Sea Music by 3C

As we arrived at Poole Quay
We stood and gazed at the sea
We were amazed by what we saw
We needed to step closer to find out more

Standing at 11 metres high
Was Sea Music reaching up to the sky
Made up of wide lines
This metal structure looks divine

Inspired by the boats and big ships
Anthony Caro liked to have fish and chips
This man is who we have to thank
With an impressive 25 years in the bank.

Sea Music by 3W

Sea Music is awake!

Blue as a whale

Heavy as a herd of elephants

Shining like a star

As loud as a band

Singing like a choir

Sea Music stands tall over the quay.

Sea Music by 3B

Sea Music is so high

It nearly touches the clouds in the sky.

The view from here is very clear

but when the fog comes it disappears.

Yum yum pizza, pies and cider

I wonder if there are any spiders?

From the second level I can see a building site

What a thrill to watch from this height.

Anthony Caro loved this view

when the clouds were grey or the sky was blue.
